Niazi A Rehman Khan

Since 1959

NIAZI DESIGN SYSTEMS

The foundations of Ms. NIAZI DESIGN SYSTEMS (NDS) was laid by Engr. Abdur-Rehman Khan Niazi, a self made man originated from a village of Faisalabad Pakistan. The man from the very first day of his carrier over powered the whereabouts of his related field due to the strong drag of his communication skills and clarity of his concepts regarding structural behavior as per aesthetics and environmental thrusts. Before the fulfilment of his dream of NDS he worked as Design Engineer with a renowned architect Mr. Nasreddin Murat Khan from the post of Asst. Structural Engineer arising to the post of company's Chief Engineer in a very short time. All projects designed by N. Murat Khan were independently and successfully designed by Mr. A. Rehman Niazi covering the aspects of structural design and public health works. After its establishment, Ms. Niazi Design Systems has been providing extended services under one roof from the time of N. Murat Khan uptill now which has contributed the main share in the major developments of Lahore city and part share in the development of other cities of Pakistan starting from Karachi to Peshawar. Working solely and in collaboration with other specialised professionals NDS has contributed a lot in setting land marks in the field of construction. Due to the best management skills and customer's satisfaction, now a days NDS is enjoying the construction and project management of a leading land Developer Ravi Group.

Some Major Land Marks In Construction

NIAZI

Some Major Land Marks In Construction

1. **Minar-e-Pakistan**
   The glorious monument is constructed to memorize the event of passing the resolution of creation of Pakistan. It is located at Iqbal Park. It consist of delicate R.C.C. ribs geometrically changing in profile inter connected by visitor's balconies at different levels.

2. **Fortress Stadium**
   Architecturally designed by Late N. Murat Khan and structurally designed by A. Rehman Niazi and reviewed by UET Lahore, without suggesting any modification in the proposed R.C.C. framed structural system. Seating of spectators is set on 30 feet overhanging almost 45° inclined cantilevers.

3. **Wapda Flats**
   At Shahrah-e-Aiwan-e-Tijarat is an R.C.C. multistoried frame structure containing flats for wapda employees. Its basement is designed to stand direct impact and hit of bomb blast.

4. **Multistoried Projects**
   Some projects are
   a) Hall road Center
   b) Rafi Plaza
   c) Zaitoon Plaza
   d) City Car Center
   e) Empire Center
   f) Land Mark
   g) Central Plaza
   h) Defense Shopping Mall
   i) Eden Center
   j) Bilz Hotel Multan
   k) Sadiq Plaza
   l) Naqi Arcade
   m) Zaman Plaza etc.

5. **NAFDEC Theatre**
   Challenging structure with large spans bridged by Vierdeel Girders systems covering one story.

And many more projects all over the country.

Serial No. 15641

Registration No. 2001/II-MS-SE-CIVIL-02

University of Engineering & Technology Lahore

This is to certify that

Mr./Ms. **Muhammad Amjad Khan**

son /daughter of Mr. **Abdur Rehman Khan**

of the University of Engineering and Technology, Lahore, having fulfilled all the requirements has been admitted to the

Degree of

Master of Science

in

Civil Engineering

Date of Completion of Degree 06-04-2006

FOR RECORD PURPOSES ONLY

Controller of Examinations

Countersigned

Chancellor

Lahore

Dated: 14 APR 2006
